

Cape Winelands Airport clarifies: Rob Hersov's involvement with the airport ended in 2023

Cape Town, South Africa – 28 September 2026 - Cape Winelands Airport has noted recent references to entrepreneur and businessman Rob Hersov in connection with the airport and wishes to clarify that Mr Hersov has no current involvement in Cape Winelands Airport.

Mr Hersov stepped down as a director of Cape Winelands Airport on 24 March 2023 and subsequently concluded his involvement with the airport. During his time as a director, he made valuable contributions to the project and its development.

He is not involved in the airport's management, operations, development or strategic decision-making, and has no current role in its ownership or governance. Cape Winelands Airport's development and strategic direction are being driven by its current Board of Directors and leadership team.

The airport is progressing with its plans to develop a world-class aviation and mixed-use precinct in the Cape Winelands, with the project continuing under its current leadership and governance structures.

Cape Winelands Airport encourages stakeholders and members of the public to rely on information issued through its official communication channels regarding the airport, its ownership, leadership and development.

ABOUT CAPE WINELANDS AIRPORT:

Cape Winelands Airport, formerly Fisantekraal Airfield, is a privately led airport development located 13 kilometres northeast of Durbanville. Originally established in 1943 as a South African Air Force base for Lockheed Ventura bombers, it was renamed in 2020 to reflect its location in the Cape Winelands. Currently serving as a general aviation facility and a popular base for flight training, plans are underway to expand and to develop a state-of-the-art, green, smart, and innovative aviation precinct that will redefine Cape Winelands Airport as a modern gateway for the region.
